Please email the completed Site Survey, VAR Sheet, and Merchant Service Agreement to: Sales@freedomelectronics.com

Easy Pump Network Info

Terminal IDs must be added by the network for each fueling point/terminal being upgraded, prior to placing an order.

1. The site owner/manager must request the additional terminal IDs from their network merchant/ISO.

- Example: (3) Dispensers will have (6) fueling points. (6) Terminal IDs will need to be added to the site profile.
- How many fueling points are you upgrading? _____ This is the number of additional Terminal IDs needed.
- Tip: This page may be emailed to the network representative to assist in this process. Contact Freedom Electronics Technical Support for assistance.

2. Request a VAR/Parameter Sheet from the network merchant/ISO.

- Email the VAR/Parameter sheet to your Freedom sales representative. It should include the following information for First Data or Heartland, depending on your network:

First Data (Buypass)		Heartland (HPS)	
Debit Key	<i>For debit processing</i>	Debit Key	<i>For debit processing</i>
Merchant ID	<i>6 digit Buypass ID</i>	Company ID	<i>4 letter site ID</i>
Terminal IDs Added	<i>Added by Buypass</i>	Terminal IDs Added	<i>Added by Heartland</i>
Group ID*	<i>Typically 20001</i>	Device IDs*	<i>Last 4 digits of TID</i>

Freedom Electronics 800-761-9369
 First Data: 800-726-2629
 Heartland: 800-767-5258
 Sinclair: 800-524-4799

Only payments processed through First Data or Heartland will be accepted. Any other proprietary or 3rd party networks will not be processed at the dispenser terminals.

Easy Pump Prerequisites

Wayne

- Dispensers with DW-12, DW-10, and Clamshell printers can be upgraded with the standard kit.
- Dispensers with Tearbar printers will require the tearbar printer kit for proper printer operation. (sold separately)
- DCPT printers are NOT compatible with Easy Pump.
- Dispensers with 10.4" displays will require 5.7" panels to upgrade.
Part# 887818-001-XXX – colors vary.
- Vista Dispensers with SPM Keypads CANNOT be upgraded at this time.
- Non-CAT Ovation and Vista dispensers CANNOT be upgraded.

Gilbarco

- Dispensers will require printer replacement for proper printer operation.
- Dispensers with 10.4" displays CANNOT be upgraded at this time.
- Non-CRIND 300/500 and 500S/700S dispensers CANNOT be upgraded.
- Non-CRIND and CRIND Advantage dispensers CAN be upgraded.

Verifone

- The Verifone Commander/RubyCi must be minimum Base 51.
- Only First Data and Heartland, Unbranded and Sinclair locations are certified at this time.
- A Cybera Enhanced Zone Router or MNSP is required.

Wayne Vista Keypad Specifications

Vista kits are **ONLY** available to upgrade from TRSM keypads. These keys have a flat surface.

Vista kits are **NOT** available to upgrade from SPM keypads. These keys will protrude.

Wayne Printer Specifications

DW-10 • DW-12

Clamshell

Dispensers with DW-12, DW-10, and Clamshell printers will operate with the standard Wayne Kits.

TearBar Printer

Tearbar requires Printer Kit for proper operation.

DCPT Printer

DCPT printers are NOT compatible with The Easy Pump.
